

Proctor Cheat Sheet — 27 pain points

Each use case /100 (≈50 products + ≈50 reasoning) · 4 = 400. Reward Cedarline-specific reasoning. Full detail in the Proctor Guide.

1 AI Security · 7 pain points

- | | | |
|---|--|---|
| 1 | Our production AI applications are exposed to users, and we are... | AI Defense |
| 2 | Under the EU AI Act, we are classified as a 'Provider'... | AI Defense |
| 3 | We are integrating various open-source models and third-party agents into our... | AI Defense |
| 4 | We have thousands of IoT devices, printers, and guest users connecting... | ISE |
| 5 | We know AI is showing up across our cloud environments faster... | Cisco AI Defense – AI Cloud Visibility |
| 6 | We're concerned that vulnerable or compromised models, repositories, or MCP servers... | Cisco AI Defense – AI Supply Chain Risk Management |
| 7 | We're running AI workloads in cloud accounts, but we don't have... | AI Defense = AI visibility and guardrail integration · Multicloud De... |

2 Cloud Edge · 6 pain points

- | | | |
|---|---|---|
| 1 | We're deploying across AWS, Azure, and GCP, but each cloud has... | Cisco Multicloud Defense, FTDv, Security Cloud Control |
| 2 | If a breach occurs in one of our public cloud instances,... | Multicloud Defense |
| 3 | Our auditors require proof that our security controls are applied consistently... | Multicloud Defense |
| 4 | Our employees work from the office, home, and coffee shops. We... | ISE |
| 5 | We have workloads spread across AWS, Azure, and on-premises data centers.... | Multicloud Defense |
| 6 | We have workloads on-prem, in cloud, and in mixed environments, and... | Cisco Secure Workload · Cisco Secure Firewall · Cisco Secure Firewal... |

3 DC Edge · Perimeter Firewall · 5 pain points

- | | | |
|---|---|--|
| 1 | When our security tools detect a compromised device, our manual response... | ISE |
| 2 | We're worried that once an attacker gets into the environment, they... | Cisco Secure Firewall, FMC, Secure Workload |
| 3 | Our firewall environment has become too complex to manage manually. | Cisco Security Cloud Control, FMC, FTD |
| 4 | Most of our traffic is encrypted, so we've lost visibility into... | Cisco Secure Firewall (FTD), FMC, Security Cloud Control |
| 5 | We're worried traditional signature-based detection won't catch new or unknown attacks... | Cisco Secure Firewall (FTD), FMC, Security Cloud Control |

4 Macro & Micro Segmentation · 9 pain points

- | | | |
|---|---|---|
| 1 | We don't feel like we have enough control over east-west movement... | Cisco Hypershield, N9300 Series Smart Switches, Nexus Dashboard |
| 2 | Network policy helps, but we also need to know what's happening... | Tetragon |
| 3 | Our Kubernetes environment changes too fast for traditional segmentation approaches. We... | Isovalent Cilium |
| 4 | Our Kubernetes networking feels fragmented — across clusters and environments. We're dealing... | — |
| 5 | Pods and services are constantly changing, so traditional IP-based policy is... | cilium |
| 6 | Right now we're stitching together separate tools for networking, security, and... | cilium and tetragon |
| 7 | We know we need microsegmentation, but we don't have enough visibility... | Cisco Secure Workload · Cisco Secure Firewall |
| 8 | We like the idea of workload-level enforcement, but in some environments... | Cisco Secure Firewall, FMC, Secure Workload |
| 9 | We need Kubernetes networking and security that can perform at scale,... | — |
